BARCLAY
SCHOOL

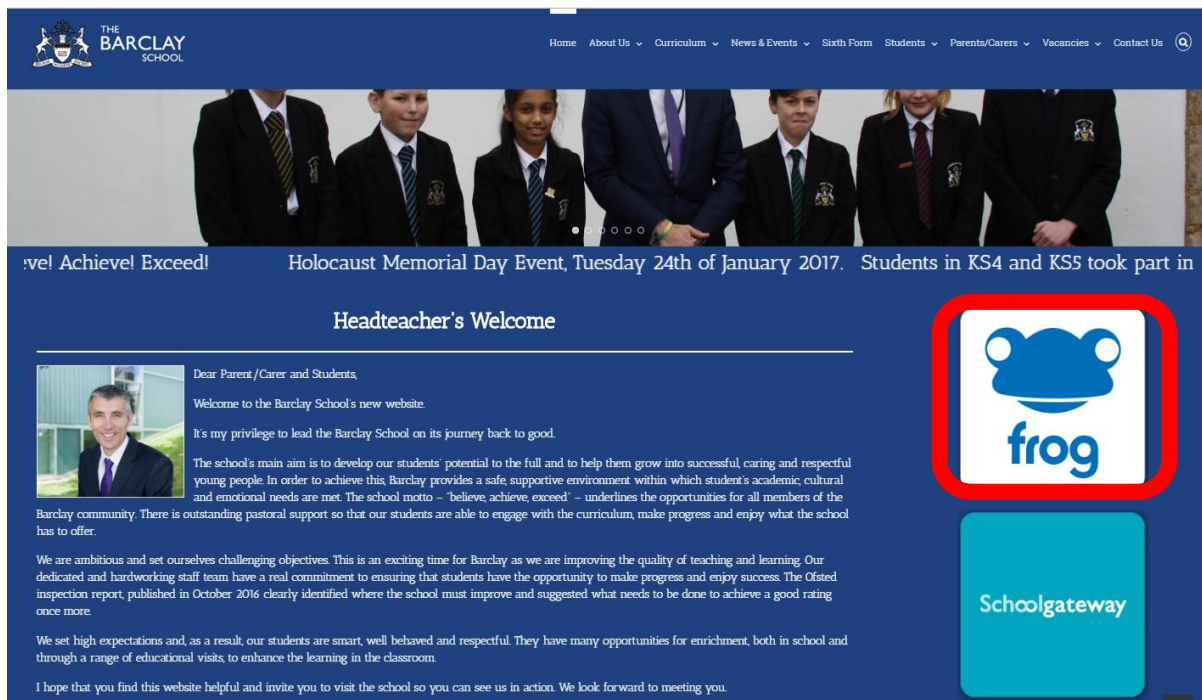

Frog FAQ

1)How do I logon?

The school has provided login details for all students in a schoolcomms message, as well as in planners. (This may be in the form of a sticker or simply written in the website page of the planner). Your login details should have the same username as with the school system. Parents also login the same way as students – there is no separate login.

In order to login to FROG, you must use the link provided on the school website homepage. If you try to login from the frog.com page it will not work – just remember to go through the school site.

Headteacher's Welcome

Dear Parent/Carer and Students,

Welcome to the Barclay School's new website.

It's my privilege to lead the Barclay School on its journey back to good.

The school's main aim is to develop our students' potential to the full and to help them grow into successful, caring and respectful young people. In order to achieve this, Barclay provides a safe, supportive environment within which student's academic, cultural and emotional needs are met. The school motto – "believe, achieve, exceed" – underlines the opportunities for all members of the Barclay community. There is outstanding pastoral support so that our students are able to engage with the curriculum, make progress and enjoy what the school has to offer.

We are ambitious and set ourselves challenging objectives. This is an exciting time for Barclay as we are improving the quality of teaching and learning. Our dedicated and hardworking staff team have a real commitment to ensuring that students have the opportunity to make progress and enjoy success. The Ofsted inspection report, published in October 2016 clearly identified where the school must improve and suggested what needs to be done to achieve a good rating once more.

We set high expectations and, as a result, our students are smart, well behaved and respectful. They have many opportunities for enrichment, both in school and through a range of educational visits, to enhance the learning in the classroom.

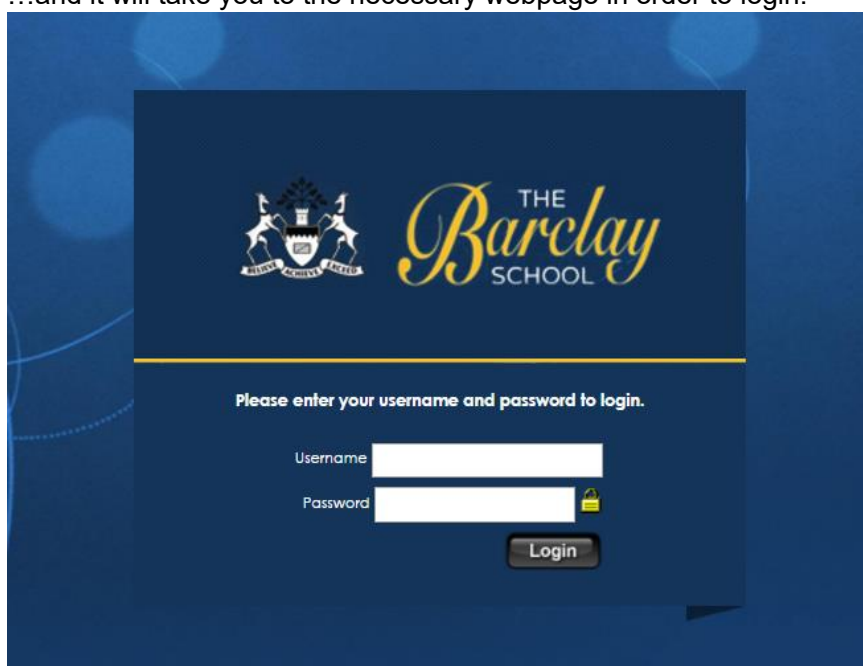

I hope that you find this website helpful and invite you to visit the school so you can see us in action. We look forward to meeting you.

2) How do I access my homework?

Once you have logged in to frog, please locate the “assignments” button – which should be on the front page once you have logged in.

From the assignment pop-up, you should then be able to view your assignments. Moreover, by clicking the headers of the table, you can organise said assignments by date due, date set, teacher, and many other properties.

The screenshot shows a pop-up window titled 'Assignments' with 'Open' and 'Closed' buttons. Below the title is a search bar and a dropdown menu. The main content is a table of assignments with the following columns: Assignment Name, Issue Date, Due Date, Subject, Teacher, Progress, Mark Given, and Submitted. The header row is highlighted with a red box.

| Assignment Name | Issue Date | Due Date | Subject | Teacher | Progress | Mark Given | Submitted |
|------------------------|------------|------------|-----------------------|------------|----------|--------------|---------------|
| Test | 01/02/2017 | 08/02/2017 | Mathematics | D Sole | 0/1 | N/A | 01/02/2017 |
| Evaluation | 01/02/2017 | 09/02/2017 | Design and Technol... | P Bhullarr | 0/0 | Not Released | Not Completed |
| DNA research task | 30/01/2017 | 08/02/2017 | Science | R Delaney | 0/1 | Not Released | Not Completed |

| Remember to bring ... | 18/01/2017 | 25/01/2017 | Other | M Marsh | 1/1 | N/A | 18/01/2017 |

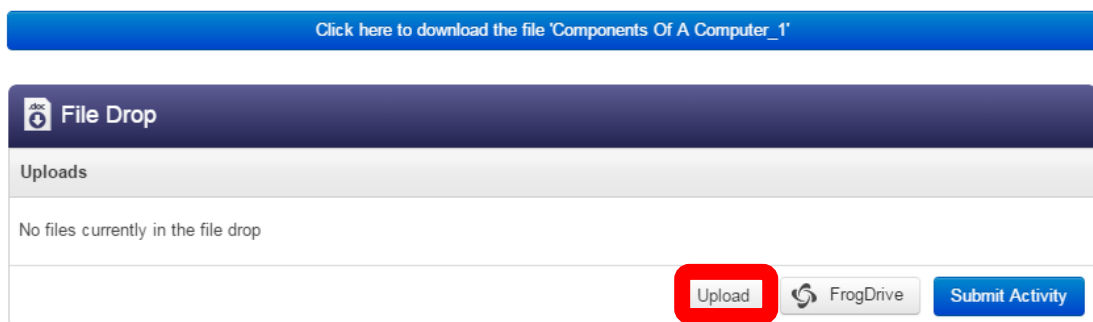

Once you have selected the homework, a brief description will appear, along with the title of the work. Oftentimes, homework tasks will have additional downloadable files. By clicking on the blue box below the description, you can download these files. Once this has been clicked, it should show up as a notification along the bottom of the browser, from there it can be opened.

3) How to submit homework

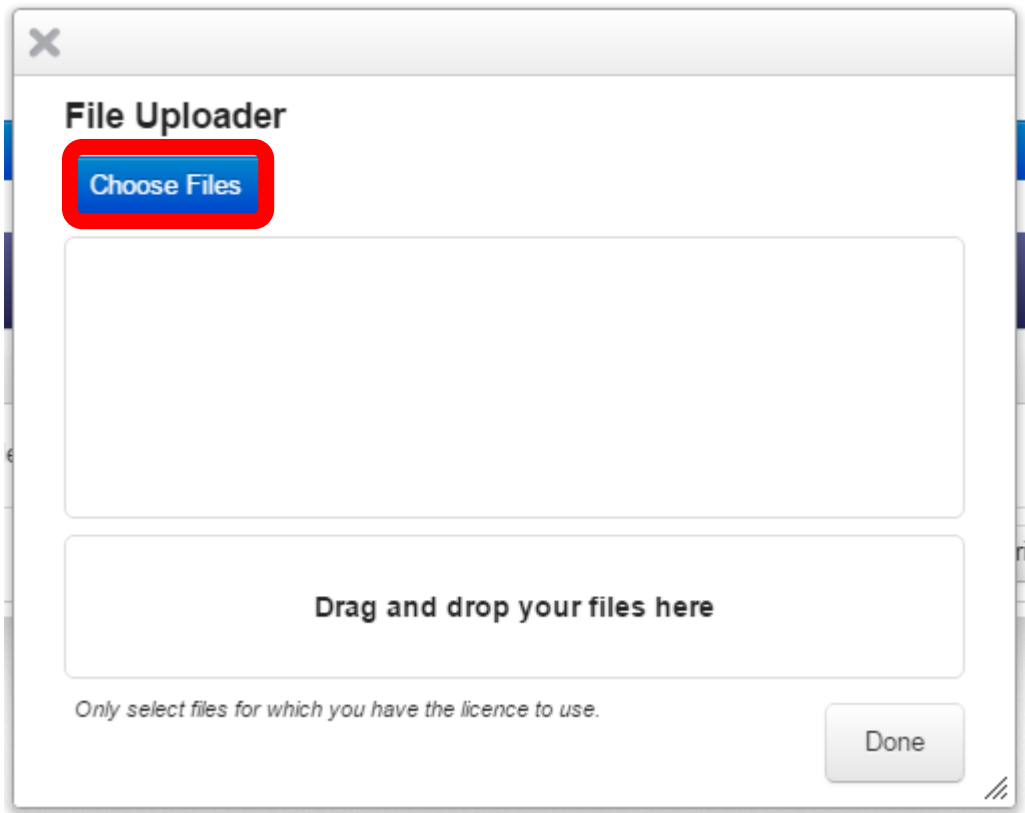

In order to submit homework on frog, make sure you complete it on either Microsoft Word or Microsoft PowerPoint. If you do not have Word/PowerPoint, LibreOffice is another similar application available for free on the internet. Once your file has been saved, click “upload” on your assignment page. You don’t have to complete the homework on the computer, and if you wish to choose this option, skip to the “complete assignment” step.

Components Of A Computer

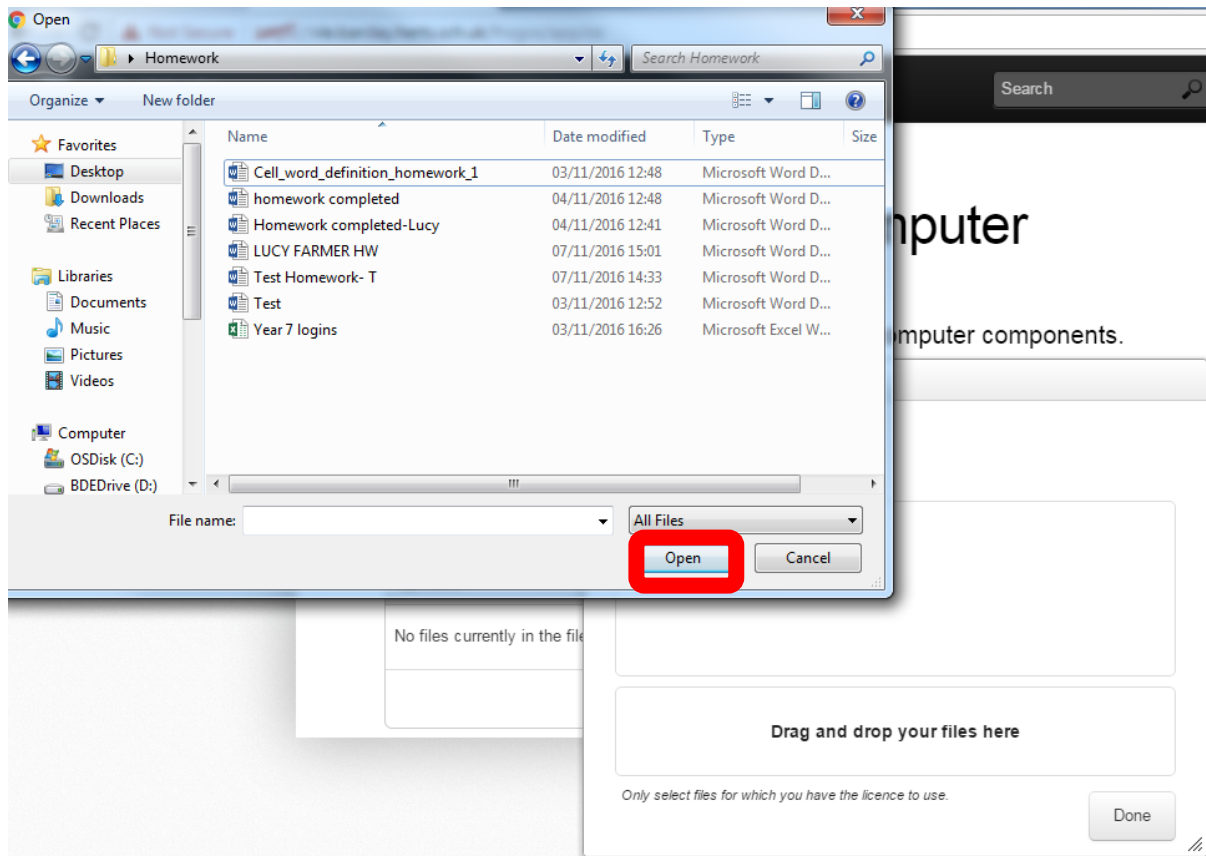

Complete the task attached on the subject of computer components.

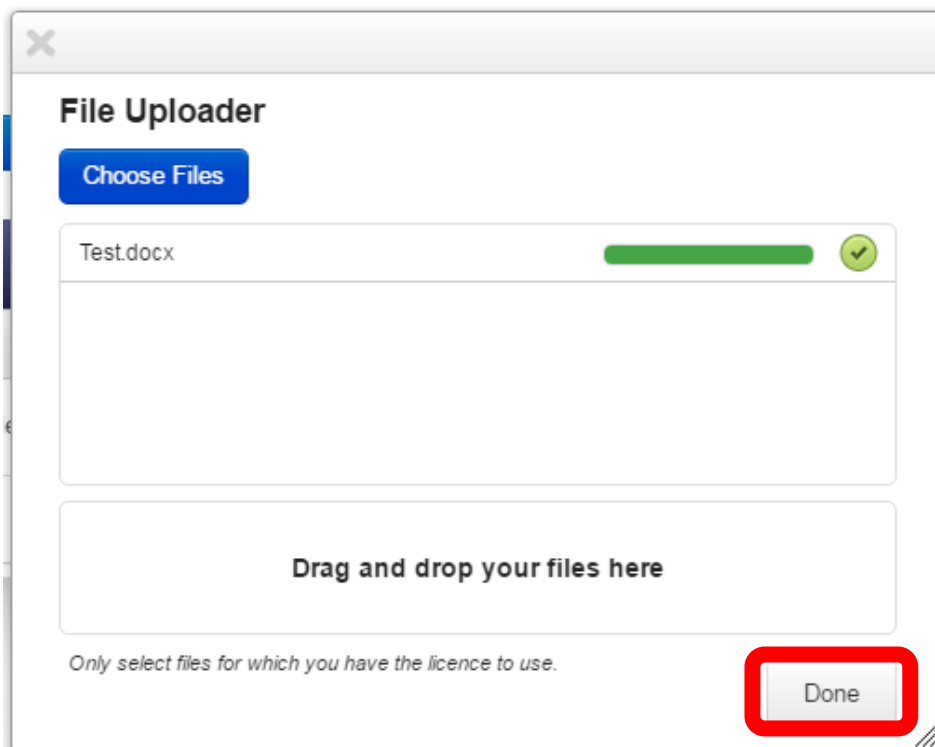

From there, click “choose files.”

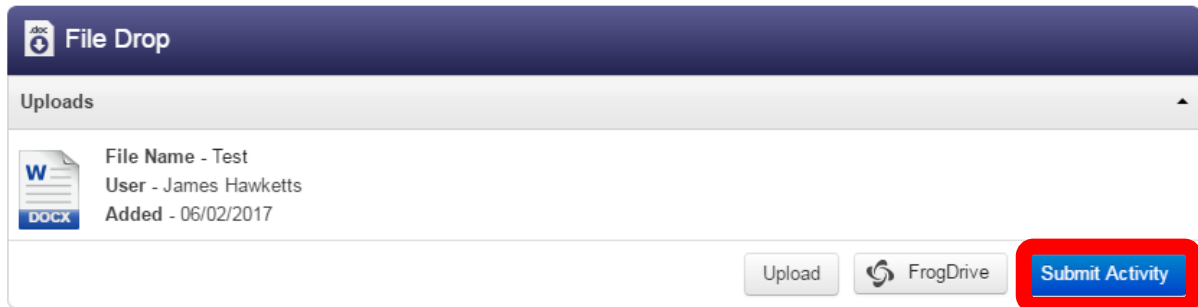

Then find your document from your hard drive.

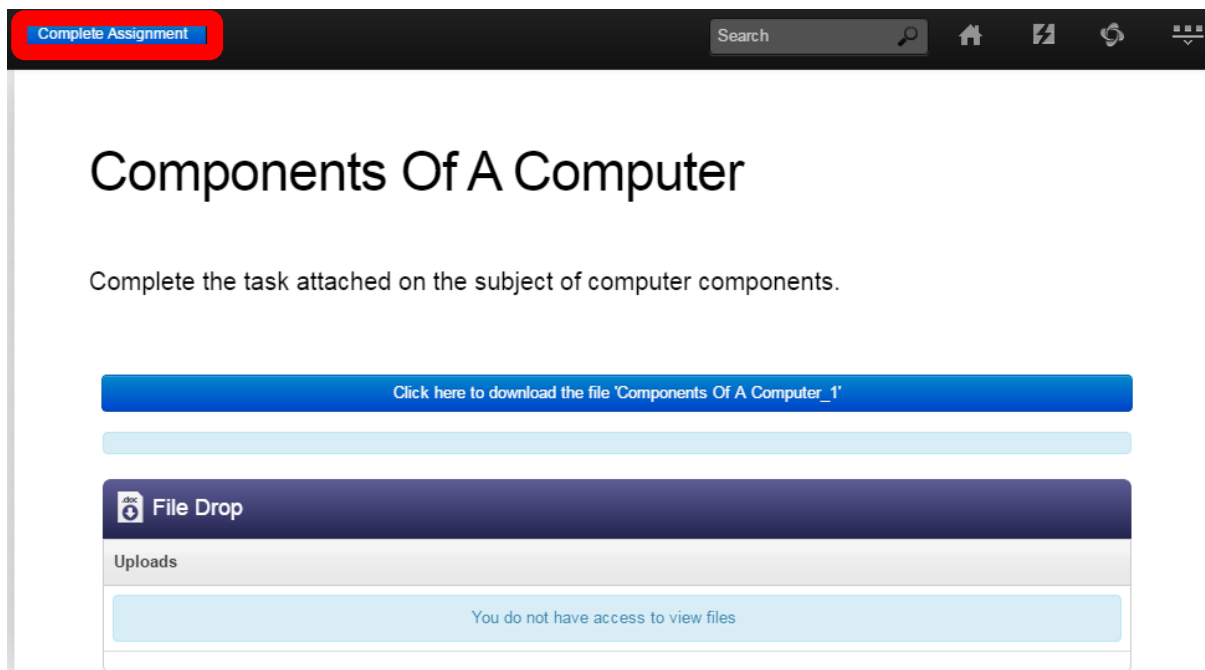

After this, click "done"...

...then "submit activity".

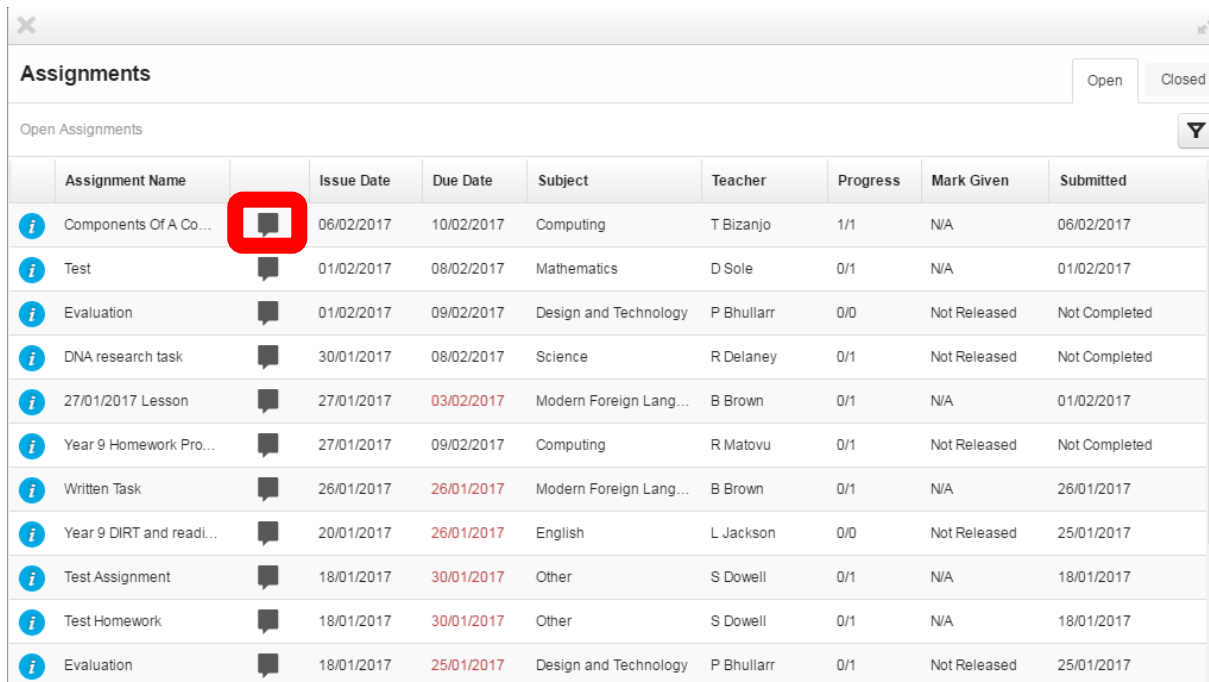

Once all this has been completed, press "complete assignment" in the top-left.

If you do not wish to complete the homework on frog, simply do it on paper, and click "complete assignment" online.

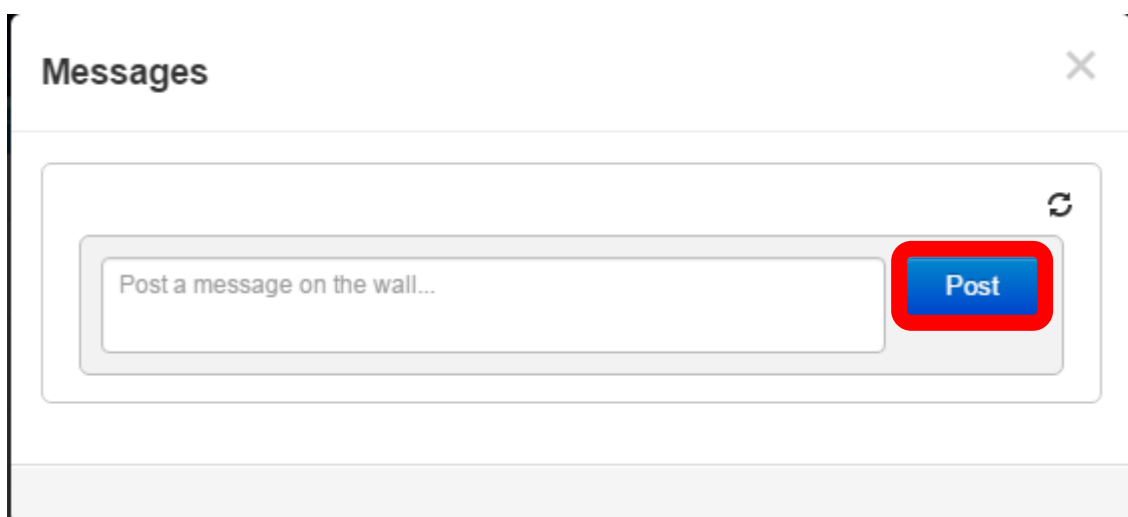

4) How to send independent messages to teachers

If you wish to ask a teacher a question about an assignment or simply talk to them about something, find the assignment you wish to ask them about on the assignment pop-up menu and click the speech bubble to the left of the issue date.

| | Assignment Name | Issue Date | Due Date | Subject | Teacher | Progress | Mark Given | Submitted |
|--|--------------------------|------------|------------|------------------------|------------|----------|--------------|---------------|
| | Components Of A Co... | 06/02/2017 | 10/02/2017 | Computing | T Bizanjo | 1/1 | N/A | 06/02/2017 |
| | Test | 01/02/2017 | 08/02/2017 | Mathematics | D Sole | 0/1 | N/A | 01/02/2017 |
| | Evaluation | 01/02/2017 | 09/02/2017 | Design and Technology | P Bhullarr | 0/0 | Not Released | Not Completed |
| | DNA research task | 30/01/2017 | 08/02/2017 | Science | R Delaney | 0/1 | Not Released | Not Completed |

5) What happens if homework isn't done?

As with standard homeworks, the same punishments apply for not completing homework, frog is no excuse. If you have a problem, see the IT support team in their office next to MA2 in school.
